Homework assignment:

Next Lesson:

“Pick a letter and say a word” can also be done like this:

**Students can do this without the teacher telling them which letters they can use.
Students can do this in groups or individually.**

The students can say one or several letters they shall use.

The students can pick one or several cards with letters they shall use.

Make different rules. For example: only the letters on the cards can be used or the students decide which letters they can use together with the letters on the cards.

They can tell each other the words they have found, write the words on a paper or use the computer.

This lesson can be done like a competition and give points to a student or a group if they like.
